

# Special Raffle!

## **Win this Electric Biplane Prize Package worth \$1,075:**

- Great Planes Reactor Biplane .60 to .90-size ARF with Great Planes 60A HV ESC
- Electrify Rimfire .80 50-55-500kv brushless motor, Great Planes Large Brushless Mount
- Futaba 7C FASST 2.4Ghz aircraft radio system with R617FS 7-channel full-range receiver
- 7 Hitec HS-225 Mighty Mini Servos: 4 BB servos for ailerons, 3 MG BB for tail controls
- Lithium Polymer 6S 22.2V 3200Mah 30C flight battery, 6V 1600Mah NiMH receiver pack

We're raffling off this beautiful new 3D Electric Biplane Prize Package, normally priced at almost \$1100.00, to help raise money for the Twin City Eagle Squadron's runway improvement costs. Raffle tickets will be sold for \$10 each, and there will only be two hundred tickets offered. We will select a winner once the final ticket is sold, probably around 3/31/2012.

Each ticket purchased gives you a one-in-two-hundred chance at winning a Great Planes Reactor 3D Biplane, a brushless power system, and a 2.4Ghz Futaba radio. Net proceeds will go to the Twin City Eagle's club, so you'll have a chance to win a great new Biplane, help out your club, and work to improve your flying field .

Don't like biplanes? The winner can opt for an \$800 alternate cash prize.

**Contact raffle director Ed Paasch for your chance to win!**
